GLOBAL OUTREACH MISSION

***1 866 483-5787***

***www.missiongo.org***

The team will be based at Global Outreach Mission's retreat center, El Jardin Sagrado, in the beautiful Orosi Valley of Central Costa Rica about 1½ hours SE of San Jose. A beautiful retreat setting with cabins and bunks await you.

The plans are for the Medical and Children's teams to evangelize by travelling to churches in the area to facilitate 2-day medical clinics with a DVBS program for the children as a means to present the Good News. Every patient is prayed with and given a gospel presentation.

The local church members join us in the ministry and do an excellent job of follow up visiting and inviting the patients into their churches.

The Construction team will be working on updating one of the GOM missionary homes plus construction and maintenance at the camp site. El Jardin is used as a base for GOM teams serving in Costa Rica and as a retreat center for evangelical churches and pastoral conferences.

It will be both a stretching and a rewarding experience for all who are willing to trust God and go to Costa Rica January 24 to February 5, 2017.

# 3 Teams in One

## CHILDREN'S

- **Worship Leader**
- **Worship team**
- **Craft Workers**
- **Teachers**
- **Teacher trainers**
- **Spanish speakers**
- **Games Leader**
- **Puppeteers**

Using music, puppets, drama, games, object lessons and crafts the Children's team will run a DVBS type program for the area children giving them a themed bible story and a clear gospel presentation. The 2-day series will run alongside the medical clinics at local churches. Teacher training with the local church children's workers is also possible. We will work with a local orphanage and have the children come to the retreat center for a day of swimming and activities.

## CONSTRUCTION

- **Electricians**
- **Carpenters**
- **Cement workers**
- **Plumbers**
- **Labourers**
- **Willing helpers**
- **Welders**
- **Tilers**

The construction team will be doing some renovations to one of the GOM homes that is used for our full time missionaries. Plus there is always camp maintenance and upgrades to be worked on. The local missionary has a long to do list ready for you.

## MEDICAL

- **Doctors**
- **EMT's/Paramedics**
- **Nurses**
- **Pharmacists**
- **Optometrists etc.**
- **Any medical professionals**
- **Dentists**
- **Dental Assistants**
- **Hygienists**
- **Physio– Therapists**

The Medical team will travel to area churches where four 2-day medical clinics are held. We work alongside the church supplying the medical expertise and supplies while the nationals provide support workers and assist in so many areas. One day may be spent at the local men's prison. Local doctors supervise the clinics as required by the Costa Rican government but North American doctors and dentists are invaluable assets.

## TEAM TESTIMONIES:

"This trip has changed my life and given me a passion and a heart to reach the lost, hurting, poor, sick and broken hearted for Christ." (Emily '15, '16)

~~~~~~~

"Serving The Lord in Costa Rica has been a highlight of my life. Glorifying God there with the different talents he has given our team members is a blessing I thank him for daily". (Carol '15, '16)

~~~~~~~

I had such a positive 2 weeks there sharing in a team effort to bring help and healing to lovely people in remote areas who have little or no medical treatment available to them.
Being on a team of Christians from different backgrounds, gifts and ages, was such a privilege and surprising, rewarding gift. God was so present in each one of us finding our spot to serve well. (Janice '16)

~~~~~~~

**We can accommodate your vision. If these dates don't work for you contact Len to see what other opportunities are available for serving in Costa Rica.— len@missiongo.org**
