

CATCH THE VISION

Now YOU can...

- **Help build relationships**
- **Start and nurture local churches**
- **Rescue children**
- **Spread the Gospel to ALL of Sierra Leone, West Africa**

CATCH THE VISION

Dear friends of the ministry,

I recently wrote you about the incredible trip that my staff and I took in November, 2015. During the journey, I visited our Mokanji compound that was given to us by tribal leaders back in 2005. The tribal leaders recognized that someone needed to help them redevelop this hospital destroyed during the war years.

Today the Global Outreach Mission campus at Mokanji has developed into an excellent catalyst and center for community health, education and care for children who are most at risk within the society.

Proclaiming the Gospel of Jesus Christ is at the heart of everything we do. Every week, our clinic is a magnet that draws hundreds who are in need of medical care and desire to talk to someone who's willing to understand their needs.

The campus has become a beacon of hope to people who have lost hope.

Global's vision for 2016-2017 is to take a significant step forward and enlarge the facility, clinic and school.

This CATCH A VISION brochure - invites you to engage in this miracle that has been building over the past few years. Started as a way to meet needs in one small part of Sierra Leone - it now has the potential to reach across the entire country, and other West African countries.

Please read this brochure prayerfully and carefully. Be ready for God to touch your heart! We need your generous gift, and we need your earnest prayer support. So, please join our prayer warrior team asking God to bless this vision and move the hearts of His people to become involved.

Yours in His Matchless Name,

Brian M. Albrecht, President

{ P.S. This is a huge step of faith!
Please pray that many will
Catch the Vision. }

Enhancing Trust

MEDICAL CLINIC VISION

A step forward for the Medical Clinic on the Mokanji campus.
**REMODEL THE BUILDING & PURCHASE EQUIPMENT-
\$225,000**

The Medical Clinic occupies a section of the former hospital on the grounds of the Mokanji compound. The exterior of the existing 10,000 ft.² facility has been completely rehabilitated; approximately one-half of the interior has been remodeled. A guesthouse has been completed to accommodate up to 16 visiting medical/ministry staff. A three-bedroom house to support a full-time missionary family is also available.

The Medical Clinic is the only health center in the region. It offers a secure and safe environment with running water and sanitation. Each week we treat approximately 175 mothers and their babies. In order to expand medical treatment, renovation of the remaining 5000 ft.² needs to be completed, and equipped with lab/medical equipment and beds.

Health facilities in developing countries need to maintain a cold storage system to ensure that critical medicines are properly stored and administered.

During the Ebola crisis it was necessary to effectively triage patients. It became evident that our facility was inadequate and an expansion is desperately needed. More beds would mean fewer patients would be turned away.

How you can help:

- Your gift of \$45 will complete 1 ft.²
- Your gift of \$450 will complete 10 ft.²
- Your gift of \$4500 will complete 100 ft.²

EXPAND SOLAR, WATER, SANITATION

**EXPANSION OF SOLAR POWER/WATER/SANITATION SYSTEMS
- \$55,000**

Most areas in the interior of the country are wholly or largely without access to electricity. Fuel operated generators are used to supply electricity. Fuel is not easily accessible which results in an interrupted power supply and outages.

The Medical Clinic is challenged by daily blackouts - energy infrastructure development is crucial. Babies are born not only in daylight; sickness does not strike only during daytime!

\$150.68 a day X 365 days = funds to purchase an endless source of power for the clinic. Join with your friends, your church or club in this effort to supply energy to our Medical Clinic.

REACH MORE STUDENTS

SCHOOL REHABILITATION - ADDING 12 CLASSROOMS
– PURCHASING FURNITURE & EQUIPMENT -
\$180,000

The Mokanji campus includes one of the many schools destroyed during the war years. Funding is needed before we can begin reconstruction. There are approximately 300 high school age children within the area. They attend a small school which will soon be closing. We need to complete reconstruction and open our school to accommodate these students.

\$600 would underwrite the cost for one student for one year.
\$15,000 would build and equip one classroom.

PROVIDE ONLINE EDUCATION

SATELLITE COMMUNICATION SYSTEM/ONLINE EDUCATION -
\$35,000

There is little infrastructure supporting computers and the internet throughout Sierra Leone. Adding satellite connection for online education would be an enormous advantage. It would provide students access to information that has not been possible until now. The non-traditional student would be able to connect with numerous medical and Christian educational systems around the world. This will provide unending educational opportunities far beyond what has been available in this region. This will also enhance our ability to recruit professionals for the medical clinic and our schools.

\$35,000 would purchase and install a satellite communication station.

EXPAND THE TREEHOUSE

TREEHOUSE PROJECT:
FACILITIES AND PROGRAMS
PROVIDE SAFE, CHRISTIAN
ENVIRONMENT FOR CHILDREN
AT RISK - \$35,000

The Treehouse Program began by targeting forty of the most at-risk girls in the Mokanji area. These children are among the most vulnerable children in the country, making them targets for human trafficking. We place particular emphasis on reaching children who are without parental care or are at risk of losing it.

Each Treehouse is simply a place where Christian leaders guide and direct the children into good living practices - mentally, physically, socially and spiritually. We will deliver the support necessary to give **HOPE** and the possibility of a **BRIGHT FUTURE** to impoverished children of the Mokanji region - Christian education (Illiteracy among school-age children is an alarming 61%), nourishing meals, medical care, clean water and much more.

\$50 buys a bag of rice to support our food budget.

\$500 provides a nurse for one month.

\$1,500 a year will support one counselor and childcare worker onsite.

\$2,500 for books and other teaching materials.

\$5,000 will upgrade the water and sanitation systems of the current facility.

\$15,000 for building and interior improvements.

DIG MORE WELLS

FIFTEEN COMMUNITIES HAVE REQUESTED WE DIG WELLS –
WELLS/SANITATION FACILITIES AND PLANTING NEW CHURCHES - \$97,500

One of the major contributing factors to the ill health of Sierra Leoneans is polluted water. Nearly one-half of the population uses water from unprotected sources leading to infections and parasites - the largest cause of death. One out of every five infants in Sierra Leone will die before they reach their fifth birthday due to water-related diseases.

The lack of clean water contributes to poor sanitation which generates a high risk of hepatitis A and typhoid fever, resulting in an average life expectancy of only 56 years - one of the lowest in the world.

Over the past four years Global Outreach has provided clean water to 150 communities and planted a church in each of these areas, on land traded for a water well.

We are faced each year with requests from communities, schools and medical sites to provide deep wells that can provide clean water all year round. We currently have a list of over 15 communities that desperately need deep-water wells.

Each community that receives a new well, exchanges the water well for a piece of land for the development of a Christian school or church. Trained pastors or evangelists are assigned to these locations for the establishment of a Christian outreach in the community. As we provide clean water, we share the Gospel of Living Water – so “you will never thirst again.”

Funding to dig these wells and start these churches will afford our missionaries/national pastors the opportunity to touch the lives of about 52,500 individuals.

Each community well and church costs \$6,500, - only **\$1.88 per person** for clean water!

As you read this amazing report you will probably ask...WHO DOES ALL THIS?

We've assembled a staff made up of a development specialist from North America and trained national leaders with the experience which has taken the ministry to excellent levels of outreach. This staff is supported by a steady stream of short-term volunteers from around the world.

The need is ongoing – DOCTORS, NURSES, MEDICAL PERSONNEL OF ALL KINDS are needed to meet real human and spiritual needs. Visit www.missiongo.org for information on how to visit Sierra Leone and help.

WHEN YOU THINK GLOBAL...THINK GOSPEL

Whether distributing food, digging wells, operating a medical clinic, planting a church or building a Christian school, our purpose is always the same – proclaiming the Gospel of Jesus Christ! We invite you to **GO INTO ALL THE WORLD AND PREACH THE GOSPEL WITH US – in Sierra Leone!**

It was gratifying this past November to participate as 84 people were baptized. They were converts as a result of all that God is doing in Sierra Leone! They came from the churches that are associated with our ministry outreach based at the Mokanji campus.

This is a significant program - we serve an all-powerful God. When we surrender to His will it is amazing what can be accomplished. You are invited to **CATCH THE VISION!**

YES, BRIAN, I/WE WOULD LIKE TO JOIN THE VISION 2016 TEAM

Here is my: Monthly Support Special Gift (Check one) for the ministry of:

- Medical Clinic - amount \$_____
- Solar Power & Sanitation System - amount \$_____
- Education - amount \$_____
- Satellite Communication System - amount \$_____
- Treehouse Project - amount \$_____
- Digging Clean Water Wells - amount \$_____
- Wherever needed most - amount \$_____

check enclosed (payable to Global Outreach Mission)

Charge my VISA MasterCard AMEX (you may give online by visiting www.missiongo.org)

Card Number _____ Exp Date ____/____/____ CVV2 _____

Name on Card _____ Address _____

EFT - I authorize GOM to deduct \$_____ from my account on the 1st 15th (Check one) of each month to begin on (date) _____
